Are you looking for new trails and parks to explore?

The Mat-Su Trails and Parks Foundation, in partnership with the Mat-Su Borough and Alaska State Parks, has been developing a trail and park resource with all the information you need for your next outdoor adventure.

The Outerspatial app is a great resource but does not replace a compass, map, and research about the area. Please adhere to trail and park user guidelines so that the entire community can safely recreate.

Free App download available on the App Store or Google Play.
